### PROFILE

Driven BCA graduate with expertise in JavaScript, Python, ReactJS, and MEARN stack development. Experienced in building responsive websites and implementing authentication using JSON Web Tokens (JWT). Currently looking for a job as frontend developer, mern stack developer, software developer, eager to apply my skills and grow in software development.

### EXPERIENCE MAY 2024 - DECEMBER 2024

#### MEARN STACK DEVELOPER INTERN

- Collaborated on developing and maintaining web applications using the MERN stack.
- Integrated MongoDB with Express.js and Node.js for efficient data handling.
- Built frontend components with React and Angular, optimizing UI and performance with hooks, state management, and lifecycle methods. Contributed to API development and implemented dynamic, single-page applications using Angular and TypeScript.

### PROJECTS

#### ALL IN ONE SERVICE APP DECEMBER 2024

- Developed a platform with three modules: Admin, User, and Service Provider, allowing users to view service providers by category, check ratings and feedback, and make bookings.
- Implemented UPI payment integration for seamless transactions, enabling users to book services and securely process payments directly through the platform.

#### EMPLOYEE MANAGEMENT OCTOBER 2024

- Developed a full-stack Employee Management System with ReactJS and React-Bootstrap for the frontend, enabling seamless CRUD operations.
- Built a RESTful API using Node.js, Express, and MongoDB to manage employee records securely and efficiently.

#### CONTACT MANAGEMENT SEPTEMBER 2024

- Developed a responsive contact management app using ReactJS, Bootstrap, and React Bootstrap, implementing CRUD operations to manage user contacts seamlessly.
- Designed a user-friendly interface with dynamic form handling, data validation, and state management to provide an intuitive experience for adding, editing, and deleting contact information.

### EDUCATION

#### BACHELOR OF COMPUTER APPLICATION (BCA)

University Of Calicut

2021-2024

CGPA : 8.3

### TECHNICAL SKILLS

- Html5
- Css
- Bootstrap
- Javascript
- ReactJs
- Angular
- React - Bootstrap
- React - Redux
- Api Fetching
- MongoDB
- ExpressJs
- NodeJs
- Python
- Java
- Git & Github

### SOFT SKILLS

- Strong Communication Skills
- Ability to Work Under Pressure
- Problem Solving Skills
- Decision Making Skills
- Team-Work
- Quick Learner

### CERTIFICATIONS

- Javascript Essentials - Cisco
- Python Essentials - Cisco
- Software Development Bootcamp - Ucode Software Labs
